Total Individuals	12219				
Total Species Reported	66				

cw = Reported count week
 US = Flagged as an unusual species
 HC = Flagged as an unusually high count
 LC = Flagged as an unusually low count

Species Requiring Rare Bird Reports to be Submitted to Regional Editor

Species

Common Loon [*Gavia immer*]

Yellow-headed Blackbird [*Xanthocephalus xanthocephalus*]

Lesser Goldfinch [*Spinus psaltria*]

Special Aspects

The weather on our count day was not so good. A real wet snow was falling which made viewing difficult and almost impossible to keep binoculars and equipment dry. Fortunately, the snow stopped midday and we were able to finish the count. It did seem to make our numbers lower and things were quieter than usual. On a good note, we did still have some open water at a few of the larger lakes which gave us some of our water birds.
